Looking for a partner for the design and development of a Concentrated Solar Power (CSP) to apply to Horizon Europe Cluster 5 call. The project aims to enhance the operational performance of concentrating solar power (CSP) plants by using digital tools to improve their positioning, operational control, predictive maintenance and overall system efficiency. The CSP system will be equipped with power and heat generation components. The consortium is seeking a company to assess and collaborate on the design and development and to provide the Solar Concentrator prototype of the research project.

Innovative Development of Alternative Composites to Carbon-Based Materials - Smart Eureka Call Partner Search. This project focuses on developing new-generation polymer nanocomposites as alternatives to carbon-based materials, widely used for their durability and low weight in sectors like automotive and aerospace. By incorporating nanoparticle-sized fillers into the polymer matrix, the project aims to enhance mechanical properties, improve thermal stability, electrical conductivity, and chemical resistance, while reducing energy consumption.

AETHNIC, a Catalan social enterprise devoted to sustainable tourism, aligned with human rights, is looking for partners for the project "Tourism and the LGBTQAI+ workers/staff: a challenge for an inclusive tourism model" (CERV-2025-EQUAL). The project aims to create an inclusive workplace for LGBTQAI+ (Lesbian, Gay, Bisexual, Transgender, Queer, Asexual, Intersex) staff in the hospitality industry. Education and awareness play a pivotal role in cultivating inclusive and diverse workplaces by equipping trainees with job-specific skills and fostering attitudes that promote equality and acceptance. Therefore, it will look for the best methodology to deliver inclusive employment education/training to hotel management and staff.

AETHNIC, a Catalan social enterprise devoted to sustainable tourism, aligned with human rights, is looking for partners for a project on Vocational Educational Training (VET) for the Social Economy in the Tourism Sector (ERASMUS+ Cooperation Partnerships). The project aims to promote SSE (Social and Solidarity Economy) solutions to reduce the effects of over-tourism and also to promote a quality sustainable tourism.

The SSE offers solutions by providing an economic system that prioritizes social, environmental and community goals over profit maximization. It emphasizes cooperation, mutual aid and democratic governance in economic activities to promote social justice, reduce inequalities and promote sustainable development.

Within the scope of the EIT Higher Education Institutions Initiative, partners are sought from higher education institutions and non-higher education institutions; industry, technology transfer offices and research and development centers. The project aims to establish a hybrid center that will increase entrepreneurship and innovation capacities for students at universities, academics at universities, and early-stage startups from the entrepreneurial ecosystem. The center will promote integration into the entrepreneurial ecosystem by providing business model development, investor meetings, company establishment, and investment opportunities. Scalable business ideas will be supported through collaboration with VC firms.
